studie +
expertise
centre

For this internship project handicap + studie is the link between the student with a disability, the educational institute and the placement organization. With our expertise we can equip a student with the special internship or practical he or she is entitled to. We coach the educational institutes on how to give optimum support. The placement organization will learn everything about flexibility, talent scouting and being an organization without barriers where everybody can work successfully.

What's in it for me? Student

- Successful internship period
- Getting both personal and practical coaching and support
- Gaining work experience in your field
- Needs Assessment gives you a better understanding of what is required to work effectively

What's in it for us? Placement organization

- Having talented and motivated students in your organization
- Checking your organization for unintentional barriers or obstructions
- Checking accessibility for employees with a disability
- Gaining experience with employees who have a disability and being an example for other companies

What's in it for us? Educational institute

- Students with a disability finding suitable internships
- Employees in your organization will be supported through training on how to supervise and work with students with a disability
- Your educational institute gets to know new placement organizations
